

Here are the changes needed to the **La Ultra - Run & Bee** webpage:

1) **On sign up**, user to give the following details:

- a. Name
- b. Age Range (pls give 5 year age ranges)
- c. Gender
- d. **Text Box:** Their story (this is where they share about their journey so far, any injuries picked up, any other life events (menopause, **personal life**, **work situation**, **children** etc)
- e. **Text Box:** Self-commitment - this is where they write their own mission statement, in their own words.
- f. How did they hear about us:
 - i. Instagram
 - ii. Facebook
 - iii. LinkedIn
 - iv. Youtube
 - v. **Rajat's Patient**
 - vi. Friend referral
- g. What are they most looking for from this program?
 - i. Text box

2) Upon **login**, the left panel to have the following tabs:

- a. Home
- b. Feel
- c. **Your 90 day plan**
- d. Functional Tests
- e. Your progress
- f. Profile

3) Homepage

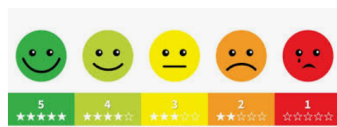

- a. Keep the boxes for checkin, streak, % completion, days to go, and journey.
- b. Add a box for 'take functional test – to be activated weekly'
- c. Remove the boxes for movement library, breathing, coach.
- d. Box for history stays but make this visual where user can see their history on workouts, of feels etc

4) **Feel page**

- a. to have 14 points as was earlier
 - i. **Sleep Quality:** Did you wake up feeling fresh?
 - ii. **Nutritional Value:** Did you eat well (quality and timing)?
 - iii. **Personal Stress:** Levels of anxiety / mental load from home life.
 - iv. **Professional Stress:** Levels of anxiety / mental load from work life.
 - v. **Emotional Baseline:** General emotional state.
 - vi. **Energy Levels:** Presence of lethargy or tiredness.
 - vii. **Movement Joy (Walk / Run):** Did the movement feel good or like a chore?

- viii. **Strength Joy:** Did you enjoy the resistance training?
 - ix. **Breath Awareness:** Was your breathing rhythmic and calming?
 - x. **The Smile Factor:** Did you smile, even if you had to "fake it"?
 - xi. **Joint Fluidity:** How "stiff" or "greased" do your joints feel upon waking?
 - xii. **Digestive Comfort:** Is your gut feeling calm or reactive?
 - xiii. **Curiosity / Learning:** Did you engage your brain in a new way today?
 - xiv. **Connection:** Did you have a meaningful, non-digital interaction with another human?
- b. **Make** individual box sizes **more compact**.
 - c. Also, instead of scale 1 to 10, **let's have 10 smiley emojis**.

Something like this

5) Your 90 day plan

- a. This is the main course page that the user will see- it will have their weekly plan
- b. This page will have weekwise modules that will unlock 1 week at a time.
- c. **'Breathe' section comes here**
- d. **'Strength Tools' and 'Running Drills' also are here, as before.**
- e. **Don't have a page with library of all exercises**

6) Functional tests

- a. This page to only have the functional tests, they could each show up in a separate box like on other pages.

- 7) **History is renamed as Progress** – this page will have the detailed view of the person's progress over the program duration, including Feel. *We can show average mood scores (already does under History), Highlight top changes*, what needs to change more.

Others points:

- 1) Could we make this site mobile-friendly as well?
